

Research Base

The Crops and Livestock Research Centre's mandate is to provide scientific knowledge, and develop and transfer innovative technologies in integrated crop and livestock systems while enhancing and protecting the environment. Research is carried out at three sites: the Harrington and Home Farms in P.E.I., and the Nappan Research Farm in Nova Scotia.

Name of Centre	Location	Employment
Nappan Research Farm	Nappan, Cumberland County, N.S	15 Permanent
Research Speciality	Affiliation	
Beef Production with emphasis on Nutrition & Manure Mgt	Federal Government and Crops & Livestock Research Centre	
Annual Funding	Contact
